4. That Article 5 & 43 of the Articles of Association of the Petitioner Company authorizes the Petitioner Company to reduce its share capital in any manner as authorized by law. The relevant extract of the said article is produced as under:

“SHARE CAPITAL AND VARIATION OF RIGHTS

- 5.
- i. *The Authorised Share Capital of the Company shall be of such amounts and be divided into shares as may, from time to time, be provided in Clause V of the Memorandum of Association with the power to increase or reduce the capital in accordance with the Company's regulations and legislative provisions for the time being in force in that behalf with the powers to divide the share capital, whether original increased or decreased into several classes and attach thereto respectively such ordinary, preferential or special rights and conditions in such a manner as may for the time being be provided by the Regulations of the Company and allowed by law.*
 - ii. *The rights of the holders of any class of shares forming part of capital for the time being for the Company may be notified, affected, varied, extended, surrendered or Abrogated in such manner as is or may be provided by the Articles of Association of the Company as originally registered or as altered from time to time.*
 - iii. *The business of the Company may be commenced soon after the incorporation of the Company as and when the Directors shall think fit notwithstanding that part of the shares have been allotted.*

43. *The Company may, by special resolution, reduce in any manner and with, and subject to, any incident authorized and consent required by law, -*
- a. Its share capital;*
 - b. Any capital redemption reserve account; or*
 - c. Any share premium account.”*
5. The Learned Counsel for the Petitioner Company states that the rationale for reduction of equity share capital of the Petitioner Company is:
- *“The Petitioner Company operates, a four-lane highway on DBFOT (toll) model. The said highway has been operational since 2013. In the initial years of operations, the traffic on the project was lower than the target traffic leading to the Petitioner Company earning lower revenue and consequently incurring losses. As a result, the Petitioner Company has huge accumulated losses thereby impacting its ability to distribute surplus cash to its shareholders by way of dividend. Currently, the Petitioner Company is witnessing increase in traffic and expects the traffic growth to further increase in the years to come. Consequently, the Petitioner Company with the sustained growth anticipates sufficient cash flows to pay off its liabilities and expenses and thereby wishes to reward its shareholders by returning the surplus cash from its operations.*

- *The Petitioner Company currently generates surplus cash from its operations and also anticipates a higher cash surplus in the future years basis the business projections. Based on the steady and regular cash flow streams of the Company and with due regards to the future projections of the business, the proposed capital reduction shall enable optimal utilisation of the surplus cash balances available with the Company for the benefit of all stakeholders.*
- *It is worthwhile to note that it is a general practice in the industry to which the Petitioner Company belongs to, to set up each highway projects under separate special purpose vehicles based on the requirement posed under the Concession Agreement. Essentially, the growth prospects of such kind of business model from the perspective of each special purpose vehicle are limited to the extent of toll collection of a previously constructed highway project and post the completion of requisite project, the special purpose vehicle is wound up. Accordingly, the major expenses viz. construction of the highway was carried out during the initial period by the Petitioner Company and during the subsequent years it is to expend only for maintenance and financing expenses to keep its business floating. Consequently, the Petitioner Company is not left with any avenues to utilize its surplus cash, over and above the maintenance and financing expenses. A capital reduction of the existing equity share capital of the Petitioner Company shall offer an avenue to the Petitioner Company to repatriate surplus cash to the shareholders in a timely manner.*
- *The reduction shall also lead to utilisation of balance in the Securities Premium account in an effective manner for the benefit of the Company.”*

6. The Petitioner Company submits that it has not availed any deposits and therefore, there has been no default in repayment of any deposits or interest thereon. A declaration by a director of the Petitioner Company along with a certificate from the statutory auditors of the Petitioner Company certifying the same is annexed to the Company Petition.
7. The issued, subscribed, and paid-up share capital of the Petitioner Company as on September 30, 2022 is as under:

Share Capital	Amount (INR in lakhs)
<u>AUTHORISED SHARE CAPITAL</u>	
2,90,50,000 Equity Shares of INR 10 each	2,905.00
TOTAL	2,905.00
<u>ISSUED, SUBSCRIBED AND FULLY PAID- UP CAPITAL</u>	
2,33,80,840 Equity Shares of INR 10 each, fully paid up	2,338.08
TOTAL	2,338.08

Subsequent to September 30, 2022, there has been no change in the issued, subscribed and fully paid-up share capital of the Petitioner Company.

8. The shareholding pattern of the Petitioner Company pre and post the reduction of equity share capital as aforesaid will be as follows:

Name of the shareholders	Pre Capital Reduction	Post Capital Reduction

	Number of Shares	%	Number of Shares	%
Equity Shareholders				
Highways Infrastructure Trust	2,33,80,839	99.999 %	2,01,55,032	99.999 %
Mr. GVM Kiran Babu (Nominee of Highways Infrastructure Trust)	1	0.001%	1	0.001%
Total	2,33,80,840	100%	2,01,55,033	100%

9. The proposed reduction is not likely to cause any prejudice to the creditors of the Petitioner Company. The creditors of the Petitioner Company are not adversely affected by the proposed reduction of equity capital, as there is no reduction in the amount payable to the creditors and no compromise or arrangement is contemplated with the creditors and they will be paid off in the ordinary course of business.
10. As on 20th October 2022, there is 1 (One) Secured Creditor of the Petitioner Company amounting to INR 4,09,04,21,102/- (Indian Rupees Four Hundred Nine Crores Four Lakhs Twenty One Thousand One Hundred and Two Only). Section 52 of the Act, 2013 provides that <i>“where a company issues shares at a premium, whether for cash or otherwise, a sum equal to the aggregate amount of premium received on those shares shall be transferred to a “securities premium” account and the provisions of the Act relating to reduction of share capital of a company shall, except as provided in this section, apply as if the securities premium account were the paid up share capital of the company”</i>. Therefore, as can be seen, if the securities premium is used for purposes other than those specified in sub section 2 of section 52, it is deemed to be a capital reduction.
